carbohydrate in, type as affecting vitamins in feces, rat, ...6957
carbohydrate high, effect on:
breaking strength of healed fractured fibulae in rats, 10223

Diet (*continued*)
carbohydrate high, effect on (*continued*)
fat distribution in liver, kidney, lung, skin and trachea of rats, postnatal, ...14769
insulin efficiency, ...18482, 18483
vitamin B, requirements,....18375
carbohydrate low, effect on blood acetone bodies, after exercise,.....6892
on toxicity of cincophen,....18765
carbohydrate/fat ratio, effect on metabolic N in feces, rat,.....6915
carotin in, effect on vitamin A content of tissues, ...11414
carotinoids in, as sources of feather pigments, ...13724
carrots in, effect on vitamin A in liver and kidney, dog,.....6986
casein in, effect on kidney weight, 15772
on protein regeneration after plasmaphoresis, ...11315
Chinese, calcium and phosphorus in, ...13622
chloride in, effect on Cl in organs and tissues, dog, ...18365
cholesterol in, effect on:
cholesterol metabolism, ...9158
tissue cholesterol, rats,.....13440
tissue lipids, ...11142
fatty livers produced by, choline action on, ...11622, 16118
citrus fruit juices in, effect on blood Ca and P, children,.....6846
coffee in, effects, rats,.....17974
of college women,.....13625
copper in, effect on cytochrome and oxidase content of tissues, 11253
hematopoietic value, ...562
.. 813, 924, 2747, 2753
.. 3015, 4853, 6797, 6818
..11142, 11640, 13708, 14016
minimal requirement for children, ...18354
cystine in, effect on:
composition of tissue proteins, ...15668
cystine output in cystinuria, 11644
glutathione content of tissues, 6913
cystine deficient, anemia from, as affected by glutamic acid,...6908
effects, ...15676
production with bromobenzene, 11142
deficient, effect on canine hookworm infestation, ...14212
on growth rate of teeth in rat, ...12459
as factor in stammering,.....15637
muscle atrophy as caused by, duck, ...6883
dental caries as related to,.....9440
in diabetes. (See under *Diabetes.*)
diseases due to, in cattle in Sweden, causes and control,.....14146
in livestock, ...16207
effect on:
acetone excretion, ...9155
acetonitrile test for thyroid activity, ...2849
alimentary fill, rat,.....13626
alkali reserve, horse,.....2674
basal metabolism, man,.....13652
rat, ...15650
blood cholesterol, dog,.....557
blood oxalic acid,.....18310
blood phospholipid content,....9149
blood pressure, East Indians, 16010
blood protein content, rat,.....2701
blood serum phosphatase,.....4805
blood sugar and lactic acid, sheep, ...18680
body fat composition, review,...2738
breaking strength of healed fractured fibulae, rats, ...10223
carbohydrate assimilation, ...11371
dermatitis, ...11142
fat deposition in liver.....11142
feathering in young birds,.....11703
fowl coccidiosis, ...9667
gastric secretion, ...18376, 18377
glucose utilization, ...2724
glycogen content of muscle, rat, 13689
growth rate of planarians,.....13713
hemoglobin in blood of fowl,....2628
hemolysin production, ...5137
hyperergic joint reaction in sensitized rabbits, ...18895
inorganic composition of blood serum, rabbit, ...18174
leprosy, ...9705
liver fat, ...2736

Diet (*continued*)
effect on (*continued*)
metamorphosis of *Ambystoma*,...9177
P distribution in striated muscle, ...4930
resistance to infection,.....18973
scurvy in guinea pig,.....15749
spleen lipids, ...18320
thiocyanate content of urine,...6759
"twin-lamb disease," 5101
urinary organic acids,.....15775
vitamin D content of egg yolk, 13793
eggs in, effect on hemoglobin regeneration, ...562, 18299
egg yolk in, effect on liver lipids, rat, ...2740
endocrine glands in, effects, fowl, 13846
essential substance in hydrolyzed casein, ...15660
fat in, effect on:
breaking strength of healed fractured fibulae, rats,...10223
carbohydrate metabolism, ..11142
composition of body fat and egg fat, domestic fowl,...13693
growth and reproduction, rat, ...13621
sparing vitamin B,.....15706
sparing vitamin G,.....15707
transmission of vitamin A to fetus, rat, ...6948
vitamin B content of tissues, 11393
fat deficient, effect on:
adrenal glands, rat,.....3816
carbohydrate metabolism in rat, ...13440, 13698
hydrogenated fat as affecting, ...11357
respiratory metabolism, rat,..9150
fat-free, effect on tissue fat, rat,..4834
fat high, effect on vitamin B_1 and G requirements, ...18375
fatty livers produced by, choline action on, ...16118
fat/carbohydrate ratio, effect on metabolic N in feces, rat,.....6915
fatty acids in, unsaturated, requirements for reproduction,...13618
fatty acid esters in, effect on growth, ...9152
fatty livers produced by, rat,.....5026
fluorides in, causing scurvy-like symptoms, ...11142
effects in sheep,.....3460
effect on:
fluorine in milk,.....9171
nutrition and growth, rat,....3051
phosphorus metabolism, rabbit, ...14014
teeth and bones, rats,.....9457
teeth and jaws, swine and rats, ...9403
teeth and organs, rat,.....14008
thyroid gland, rat,.....7033
vitamin C in body tissues, cattle, ...6975
gelatin in, effect on kidney weight, ...15772
in progressive muscular dystrophy, ...16162
glandular tissue in, effect on cancerization in mice,.....9308
glycine in, effect on uric acid and allantoin excretion, dog,.....13440
goitrogenic Ca-rich, effect on white rats, pathogenesis and histopathology, ...18838
hardness, as related to dental abrasion and growth in rabbits,.....5959
herbage in, green, dried, and sun-cured, effect on bone calcification, rat, ...4846
for infant, galactose in, effect on body weight, urine and blood sugar, ...15681
soybean milk and egg preparation as used in, ...11345
iodine in, goiter incidence and,...3120
.....13433, 14459, 16152
Holland, ...9172
New Zealand, ...11680
iron in, effect on cytochrome and oxidase content of tissues,.....11253
hematopoietic value, ...562
..813, 924, 2747, 3239, 4853
..5024, 6794, 6797, 6814
..6818, 6824, 11142, 11312
..11640, 12121, 14016, 18253
minimal requirement for children, ...18354

Diet (*continued*)
ketogenic, acid elimination in,....17974
effect on bacterial growth in urine, ...7102
on blood CO_2 content and alkaline reserve, ...15630
in epilepsy. 18914
lipids in, effect on lipid content of blood in lactating goat,.....13699
predisposing to erythrosine hemolysis, ...6856
liver in. (See also *Liver, extracts.*)
effect on:
growth, in absence of vitamin G, ...11392
growth, reproduction and lactation, ...11142
hemoglobin regeneration, ...562
protein regeneration after plasmaphoresis, ...11315
liver protein in, nutritive value,..15642
magnesium in, effect on Mg and Ca in bones, tissues, and blood serum, rat, ...2745
magnesium deficient, effect on:
bone composition, ...18358
liver and kidneys, rat,.....18352
mineral metabolism, ...13704
meats in, chemical composition,..15644
effect on basal metabolism,.....575
on hemoglobin regeneration,...562
mesocystine in, effect on growth,..11361
methionine deficient, production with bromobenzene, ...11142
milk, goat's, anemia from, as affected by Cu and Fe, rats,.....2747
pathology in infants,.....11640
irradiated, antirachitic and calcifying properties, ...6959, 6985
reproduction and growth on, as affected by minerals and sucrose, rat, ...4848
vitamin D fortified, potency, for infants, ...11417, 15705
minerals in, effect on growth and reproduction on milk diet, rat,..4848
mineral deficient, "cripples" in lambs due to, ...3137
effect on acid-base balance of serum, rats, ...13440
on serum electrolytes,.....18363
of mother, effect on bone composition in infant, ...13709
new nutritional factor in,.....11340
oatmeal in, effect on hematopoiesis, 562
in treatment of rickets,.....6945
peanut oil in, effect on fertility,..11341
for *Peromyscus*, improved type,...11337
phosphorus in, Chinese,.....13622
college women's, ...13625
effect on Ca assimilation in cows, 4855
vitamin D interaction with, in rickets therapy, ...6944
phosphorus deficient, effect on energy metabolism, dairy cattle,...2709
phosphorus/calcium ratio, effect on:
blood Ca and P, rat,.....9260
blood plasma phosphatase, sheep, ...18158
bone structure and composition, rat, ...9260
physiological effects, statistical analysis, discussion of methods,....15635
pinto bean in, value, in Mexican children, ...6877
of pregnant ewes, in etiology of pulpy-kidney disease of lambs,...3129
protein in, college women's,.....13625
effect on:
compensatory renal hypertrophy, ...11563
cystine metabolism, dogs,...15674
.....15675
cystine output in cystinuria, 11644
kidney weight, ...15772
urine composition, ...2715
vitamin B requirement, 2778, 6968
vitamin B_1 and G requirements, ...18375
immunization to, by passage through normal gastro-intestinal wall, ...3180
of wheat, rye, and pea meal, supplementary relationships between, ...6914
protein decomposition products in, effect on body weight,.....13672

Diet (*continued*)
protein deficient, effect on:
blood chemistry, hen,.....15672
Ca content of serum,.....11310
value of certain amino acids in, 13672
protein-free, effect on uric acid and allantoin excretion, dog,....13440
hemoglobin production on, iron in diet as affecting, ...6814
protein high, effect on ethyl sulphide excretion, ...13665
on rat protozoan infection,..19089
protein requirement, for growth and maintenance of young dogs, ...15674
in recovery from vitamin B lack, ...13748
purine-free, effect on uric acid and allantoin excretion,..13440, 15669
rachitic. (See under *Rickets.*)
regulation in animals, food preferences as related to, discussion,...9215
relation to dental caries,..11676, 13624
requirements, for man, review,...18339
restriction, effect on stimulation of testis activity by red light, starlings, ...673
of rice, various oils, yeast, and fatty acids, effect on growth and nutrition, rat, ...18350
rôle in causation of thyroid diseases, ...16174
roughage in, effect on protein digestibility, ...15628
reaction to, rats and mice,.....15640
salt-free, effect on blood Ca, K, and cholesterol, children, ...9164
on oculo-cardiac reflex, children, ...9164
salt high, effect on survival of adrenalectomized rats, ...13879
salt low, changes in cells and pigment of blood after realimentation, rats, ...13440
effect on:
bones, rat,.....4838, 9464
fat storage, ...18356
reticulocyte count, rat,.....4850
teeth, rats, ...11142
voluntary activity, rat,.....17974
of sheep, in relation to helminth infection, ...5239
soybean, carbohydrate, nutritional value, ...15629
soybean oil, vitamin E in,.....15755
synthetic, for herbivora,.....11142
thymus in. (See *Thymus, feeding.*)
thyroid in. (See *Thyroid, feeding.*)
tryptophane in, importance,.....13830
tryptophane deficient, value of indole derivatives as supplements, 11142
tryptophane substitutes in, value for growth, ...6905
ulcer, effect on capillary resistance, 5078
value in leprosy prophylaxis,....11666
vegetable, effect on structure of gizzard in owl, ...12452
on thyroid gland,.....18933
vegetable oils in, effect on nutritional encephalomalacia in chicks, 6884
for vitamin assay methods in rats, 2760
vitamins and, review,.....11344
vitamin A deficient, preparation,..13737
for vitamin B_2 and B_4 detn.,.....13754
vitamin C deficient, for guinea pig test, ...15703
vitamin E deficient, formula for,..15744
yeast in, effect on growth and nutrition of rats fed on rice, oils, and linoleic and linolenic acids,...18350
on vitamin content of human milk, ...15704
zinc in, effect on growth and fur development, rat, ...9175
Diethylamine p-aminophenylstibiate, in treatment of leishmaniasis,..14229
Diethylmalonylurea. (See *Barbital.*)
Difference, method of, use,.....17699
Differentiation, cellular physiological aspects, ...6692
center, in egg of honey bee,.....14816
chemistry, review, ...13452
critical threshold in regeneration of appendages of crustaceans, 17052
in embryo, gene changes in, hypothesis, ...12987
energetics, comparison of oxygen consumption in half and whole embryos of sea urchin,.....15657
as influenced by amino acids, in amphibian larvae, ...2714
by thyroxin, substances antagonizing, ...17974
rôle of amino acids in, tadpoles,...4859
of tissue cells, in vitro 3857
Difflugia (p.2405[2]), transplantation studies, ...6054
constricta, feeding habits,.....10285
cratera, identity, ...6037
oblonga, feeding habits,.....10285
pyriformis, fat inclusions,.....1772
Difflugiidae (Protozoa), p.2405[2]
Diffusilina (p.2403[4]) *papillata* (*Dendronina*), ...19968
Diffusion. (See also *Absorption; Dialysis; Membrane; Osmosis; Permeability; Ultrafiltration.*)
of alcohol through collodion membranes and tissues of living fish,..6719
of CO_2 in tissues, detn. method,..11457
into cell models, causing simulation of growth curves, ...13452
theory, ...11157
of dyes in agar under influence of electric current, ...13529
through membrane, equations for, 17990
of oxygen into cells, coefficient for, ...11452
of oxygen in lungs as affected by exercise, ...11440
in plant parenchyma, rôle in translocation, ...4699
potentials, rôle in electric potentials in plant cells, ...13332
rôle in membrane potentials across frog skin, ...13481
rôle in Liesegang ring formation, 13469
DIGALISTES (Arach.)(p.2427[4]), ...6201
signata, ...6201
Digenia (Platyhelminthes), p.2408[2]
Digera (p.2396[1]) *arvensis,* life hist....1580
Digestibility, of alfalfa,.....5501
of alfalfa and clover proteins, sheep, ...9960
of alfalfa and greens, pigs,.....5482
of alfalfa meal and oat hulls, pigs, 1360
of crude protein, in wheat, barley, oats, and rye, summer and winter varieties, ...6919
of feeds by cattle, measuring methods compared, ...7714
of hay, as influenced by drying method, ...16575
of milk by-products, pigs and cattle, ...5489
of proteins, hens,.....9969
as influenced by roughage content of diet, ...15628
in various animals,.....13670
from wheat and millet,.....15627
of soybean carbohydrate,.....15629
of sugar beets,.....5504
of sunflower silage,.....1353
Digestion. (See also *Digestibility; Enzymes; Food, ingestion; Hydrolysis; Proteolysis;* and under digestive organs, e.g., *Pancreas, Stomach.*)
of bacteria by Protozoa, physiology, ...6041
in bird, ...9211
of bread crust and crumb, by trypsin in vitro, comparison, ...6879
of casein in vitro, partial clevage products, ...11142
in cattle, as influenced by P deficiency, ...12135
of cellulose by pigs,.....1360
derangement, in pail-fed calves, cause and control, ...11724
diseases, in livestock in Norway,..16207
effect on:
blood flow from liver,.....17974
blood flow in various arteries and veins, ...15971
circulation in certain vessels,..17974
circulation time, ...17974
gaseous metabolism in rat,....15649
heart rate, ...15971
enzymatic, of gastric mucin,.....18007
in fur-bearing animals, physiology, 9199
humoral effect on gall bladder contraction, ...9207
as influenced by vitamin G deficiency in rat, ...11142
by insectivorous plants, rôle of microorganisms in, ...11114
of inulin, ...18390
in Mesozoa, ...20019
peptic, as inhibited by mucin,....11142
of meat, factors affecting,.....9210
of protein, chemical mass action in, 6995
in Gastropods, ...9191

Drug (*continued*)
chemical constitution and pharmacological action (*continued*)
codein and dihydrocodein isomers, ...16032, 18715
comparative effects of benzyl-β-phenylethyl-, and di-(β-phenylethyl) amines and derivatives,..7227
o-cresols, ...19182
derivatives of harmol and harmalol, ...19176
di-β-phenylisopropylamine, ...16014
dinitrophenol compounds, ...18788
harmol derivatives, ...4958
morphin and codein isomers,....7228
N-methylated-β-phenylethylamines, ...9380
phenanthrene derivatives, ...16026
saligenin derivatives, ...9386
tropane group 7238
in common use, pharmacology,....4954
crude, of Orient, book,.....19506
dosage, body weight and,.....18702
effect on:
adrenal structure in living frogs, ...19818
body heat loss,.....13641
heart rhythmicity, contractility, and refractory period, turtle, 11539
intestinal juice, ...17974
intestinal transplants, ...830
on invertebrate heart,.....754
oxidations of brain,.....13440
self-sterilization of skin,.....9508
smooth muscle of intestine,.....9189
T wave of electrocardiogram,..18655
encyclopedia and guide,.....16150
homeopathic, book, ...19510
idiosyncrasies to, mechanism,.....5120
intoxicating, book, ...3062
methyl xanthines and amines, myocarditis produced by, mechanism, ...16035
plant(s). (See *Medicinal plants.*)
powder, quantitative analysis, importance of studies on constancy of no. of cells,.....12339
resistance to, as influenced by splenectomy and suprarenalectomy, 3208
in trypanosomes, natural defence mechanisms supplementing, ...19037
synergy, alcohol-acetanilid, on organism, ...802
of alcohol, caffein and nicotin,..17974
caffein-acetanilid, on organism,..802
calcium gluconate-scillaren-B, on heart, ...7232
mercurial diuretics with diuretic action of ultraviolet,.....18542
toxicity, body temp. and,.....18724
Drusa (p.2399[1]), chromosome number, 8718
Druscia (p.2450[3]), *Hoplismenus capitatus* referred to, ...20343
Dryadomorpha (p.2433[4]) **viridia**,.....8458
Dryandra (p.2395[4]) † **yakovlevi** (K),..14664
Drying. (See also *Dehydration; Desiccation.*)
apparatus, ...447
of fruit, monograph,.....14812
Drymadusa (p.2431[2]) **adzharica**,....17366
magnifica, ♂ genitalia,.....17366
Drymaeus (p.2419[2]) *bahamensis* ssp. **greenwayi**, ...1836
ssp. **roseatus**, ...1936
Drymaria (p.2396[1]) **ladewii**,.....19590
stricta, ...19590
Drymobius (p.2459[2]) **chloroticus** (*Dendrophidium chloroticum*), ...20510
melanotropis (*Dendrophidium*), ...20510
rubriceps, syn.,.....20510
Drymocataphus (p.2462[1]) *tickelli* **grisescens**, ...2154
Drymoluber (p.2459[2]) *brazili*, syn.,...20510
Drynaria subspathulata (*Lepisorus thunbergianus* v. s.),.....1531
Dryobalanops (p.2398[3]), wood properties, ...7849
Dryobates (p.2461[2]), bill structure and growth, ...12413
food relations, ...10853
cabanisi **cadwaladeri**, ...10689
homorus, syn.,.....10694
minor **ernsti** (*D. m. harterti*),.....2141
Dryophis (p.2459[2]), visceral musculature, ...5895
Dryophthorus (p.2439[2]) **curtus**,.....15000
Dryophthoroides (p.2439[2]) **parvungulis**, 1926
Dryopithecus (p.2464[1]) † *cautleyi* (N), in India, ...10717
† **sivalensis** (N), ...10717
Dryopoidea (Coleoptera), p.2436[4]
Dryopteris (p.2392[2]), *Cryptostictis* on, 19533
Macrophoma on, ...19533
Phyllostictis on, ...19533
atrata (*Aspidium atratum*),.....3624
atrospinosa, ...1534
brunnescens, ...1534
calcicola, ...1534
championi (*Aspidium*), ...3624
crassinervia, ...7903
fordii (*Nephrodium*), ...3624
fraterna (*Aspidium*), ...12320
gurupahensis (*D. sagenioides* v. *g.*), 1534
indusiata (*D. gymnosora* v. *i.*),....10133
interrupta (*Pteris*), ...7899
kjellbergii, ...1534
liliana, ...1533
nuna, ...5752
parasitica, prothallial development, 3715
and sporophyte development, 7905
polyotis, ...1534
subconformis, ...1534
sumbawensis, ...7903
tenericaulis (*Polypodium tenericaule*), ...3624
Dryoxylon (p.2401[4]) † **elgonense** (Ter), 14654
Drypetes (p.2397[1]) **madagascariensis** (*Ilex*), ...10098
v. *typica* subv. **inermis**,.....10098
Dryptodon (p.2391[2]) *caespiticius* (*Grimmia alpestris* v. **caespiticia**),.....10059
Dubautia (p.2401[2]) **fallax**, n. hybr.,..19638
fucosa, n. hybr.,.....19638
knudsenii v. **degeneri**,.....19638
laxa v. **blakei**,.....19638
v. **waianensis**, ...19638
Duchesnehippus (p.2466[1])(†), tentative n. gen., ...12402
Duck(s). (See also *Poultry;* and under genera, e.g., *Anas.*)
allantois, development and involution, ...12501
blood picture and Hb detn. in,....3769
chicken sarcoma transplanted to, review, ...861
diphtheria immunity in, inheritance, ...7383
domestic, trematodes, Japan,.....14871
embryo, histogenesis of notochord in, ...10255
kidney tissue, transplanted to chick chorioallantoic membrane, reactions and development of species specificity in,...10266
endoparasites, ...1061
fattening, feeds for,.....5520
feeds and feeding methods,.....14448
game, food in U. S. A.,.....10701
Grandry's corpuscles, origin of cells, ...10208
mallard, feather growth and pigmentation as affected by season, thyroid and testis hormones,.....648
plumage pattern, genetics,.....2305
metabolism, factors affecting,.....9970
muscle atrophy in, nutritional factors, ...6883
pituitary body, relations of prechordal mesoderm to, in embryo,...8149
Prosthogonimus in, tax. and biology, 7425
protein feeds and level for, 9967, 14441
Psilochasmus in, ...5234
sarcosporidiosis in, ...3903
Schistocephalus in, life hist.,.....3940
skull, segmentation and chondification, comparative study, ...8148
Spirocerca in, ...14226
teeth primordia in embryos,.....8147
Tracheophilus in, ...3948
wattles, pigment in, dietary sources, ...13724
western sickness (botulism), etiology, distribution and factors influencing, ...18956
Ductility, of isolated plant protoplasts, ...15520
Ductus arteriosis Botalli. (See under *Blood vessels.*)
Ducula (p.2461[2]) *concinna* **aru**,.....15208
Dudgeona (p.2444[1]) **polyastra**,.....8519
Dudleya (p.2396[4]), status,.....3676
collomae, ...16772
lagunensis (*Echeveria*), ...3676
murina, ...1570
Dugong, of Rodriguez I.,.....12921
Dugongidae (Mammalia), p.2465[4]
Dujardinia (p.2410[3]), in *Myonax*,....12589
baylisi, in *Crocodilus*,.....6108
longispicula, in *Caiman*,.....6108
paulista, in *Caiman*,.....6108

Dulcitan, metabolism, ...15678
Dulcitol, metabolism, ...15678
Dulichia (p.2425[3]) **aspina,**.....4052
Dumbness. (See *Deaf-mutism.*)
DUMIGANIA (Lep.)(p.2442[3]), ...8519
iochlora, ...8519
Dumontia (p.2387[4]) *robusta* (*Aghardhiella*), ...1463
robusta (*Solieria*), ...3578
Dumontiaceae (Algae), p.2387[4]
Dumortiera (p.2391[1]) *hirsuta,* developmental study, ...7898
morphology, ...10063
Dunaliella (p.2385[3]), digestion by enzymes from pelagic copepod,.....11172
morphology, ...14544
Duncania (p.2417[4]), † (Cb), syn.,.....1841
Dunes, afforestation with acacias,..19495
ant distribution on,.....8835
of California, reptiles,.....10666
of drifting gypsum crystals, colonization, New Mexico, ...15412
of E. Prussia, biota ecology,.....15367
life forms, in relation to hydrotherms, ...15426
sand, vegetation, ...183
Duodenum. (See under *Digestive tract; Intestine.*)
Duponchelia (p.2443[4]) **fumidalis,**....15122
Dura mater. (See under *Meninges.*)
Duran-Reynals' phenomenon, with vaccine virus, mechanism, ...5255
Durandiomyces (p.2389[4]) *phillipsii,* descr., ...5750
Duranta (p.2420[1]) † **curasavica** (K), 20065
Duranta (p.2400[1]) **recurvistachys,**...19590
Duroziez's sign, incidence in arteriosclerosis and vascular diseases, ...11619
Dussana (p.2433[4]) *quaerenda,* redescr., ...20301
Dussumieria (p.2454[1]) **productissima,** 8547
Dussumieriidae (Pisces), p.2454[1]
Dust(s). (See also diseases caused by, e.g., *Silicosis.*)
in air, detn., quantitative and qualitative, ...18436
bacterial spores in, transport for great distances by, ...16408
copper oxide, for seed disinfection, ...11049
cotton, coir and esparto grass, histamin in, ...11658
insecticidal. (See also specific agents used in dusting; *Fungicides; Insecticides; Sprays.*)
in ant control,.....1273
for banana thrips,.....5445
Ba fluosilicate as,.....19321
for boll weevil,.....9921
for cauliflower worms,.....16497
comparative toxicity and carriers for, ...7656
dosage, method of determining, 6626
effect on cockroach,.....3422
on potato yield,.....1296
in flea beetle control,.....7635
for forest insects, 14390, 16512, 16518
for green vegetable bug,.....7659
for locusts, ...5428
nicotine as, ...12074
for onion thrips,.....7652
residue from, ...7684
stomach-poisons, ...3420
mineral, inhalation effects,.....11441
retention in nasal passages, apparatus for measuring, ...11449
relation to silicosis,.....18435
talc, toxicity, ...11630
tar-containing, carcinogenetic effects on skin and lungs of mice,.....852
in upper air,.....13165
Dust cells, origin and detn. method, 14155
Dusting. (See also *Dusts; Fungicides; Insecticides; Spraying.*)
from airplanes, ...3430
airplane vs. motor, for forest pests, ...9935
apples, for scab and mildew,.....11068
spraying compared, ...17833
in boll weevil control, relation to fertilizer, ...1330
cereal seed, for disease control,.....6631
motor, for forest insect pests,.....9935
pecan trees, for scab,.....310
vs. spraying, for apple scab control, 307
sugar beets, for leaf spot control, 17840
tomatoes, for late blight,.....4662
Dutaillyea (p.2397[3]), fruit descr.,.....1572
sessilifoliola, ...1572
Duvalia (p.2399[4]) **emiliana,**.....1567
Dwarfism, atypical cartilage growth as related to, ...7273
inheritance, in rat,.....13084
metabolic rate in,.....13655
Dyakia (p.2419[1]) *rumphii,* syn.,.....8325
Dybowskiella (p.2415[3]) † **lebedevi** (Cb), ...14903
Dyckia (p.2394[2]) **dusenii,**.....1548
DYCLONA (Hym.)(p.2451[2]), subg. of *Cardiocondyla,* 6313
Dye(s). (See also *Stains;* and under special dyes, e.g., *Methylene blue,* etc.)
acid and basic, penetration of frog skin by, ...6707
acridine as, ...7428
aniline, as derived antigens, chemical structure related to specific combination, ...15617
azo-, anaphylactic shock by,.....7357
as anticoagulants, ...17985, 18221
effect on methemoglobin formation and respiration in erythrocytes, ...2658
bacteriostatic action on bacteria, liver bouillon for determining, 14290
brilliant green as,.....5331, 9759
bromsulphalein as, ...6834
carmine and hematein as,.....17544
chemotherapy by, effect on mycoses, ...3292
colloidal, size of particles, detn. by graded collodion membranes, technic and results,.....1080
congo red as,.....4881, 5142, 13454
cresol red as,.....13440
cresyl blue as,.....7428
crystal violet as.....19281
diffusion in agar under influence of electric current, ...13529
effect on bacteriophages, for gram-neg. vs. gram-pos. bacteria,.....7450
on *Endamoeba,* 3214
on nerve tissue after death,.....7202
eosin as,.....423, 6755 .....6800, 11225, 12348
erythrocyte permeability to,.....2696
erythrosin as, ...4713 .....6856, 12348, 15542
excretion, as influenced by barbital, ...9389
fat-soluble, reaction of tumor cells to, ...11657
gentian violet as,....5331, 9727, 9881
Janus green as,.....793
malachite green as,....576, 3594, 9759
methyl red as,.....3331, 15586
Nile-blue sulphate as,.....1246, 1247
neutral red as,.....19, 6484
organic, effect on respiration in erythrocytes, ...2658
oxidation-reduction, effect on tumors, ...16124
permeability of guard cells to,...15531
phenol red as,.....7103, 11423
phenylazo alpha alpha diaminopyridine, pharmacology and toxicology, ...16063
photodynamic. (See *Photodynamic action.*)
place and rate of passage, in sycamore maple, ...13407
plants yielding, of U. S. A. and Canada, ...15262
resistance to, bacterial virulence in relation to, ...956
rhodamine-G esters as,.....11959
rosindulin as, ...2658
safranin as, ...2658
sources, used by American Indians, ...17582
sudan III and sudan black as,....11657
thiazole-azo, preparation and bactericidal properties, ...7506
trypan blue as,.....2581, 11657 .....11879, 14192, 19978
Dyera costulata, dist. and silviculture, 12245
preparation and marketing,....10012
Dynamena (p.2407[1]) *cornicina,* in Red Sea, ...3920
pumila, embryo, nematocysts in,...1752
Dynemenopsis (p.2425[1]) *dumerili,* from Red Sea, ...10428
Dyocibicides (p.2405[2]) † **danvillensis** (E), ...1763
Dyromys (p.2464[3]), internal ear,.....8056
nitedula tichomirowi, bony labyrinth in, ...8055
Dysauxes (p.2441[4]) *ancilla* f. **innotata,** 10581
f. **pleuripuncta,** 10581
famula famula f. **pseudohyalina,**...10581
f. **pseudoservola,** 10581
v. *hyalina* f. **innotata,**.....10581
f. **pseudofamula,** 10581
punctata v. *punctata* v. **danieli,**....10581
v. *servula* f. **bipunctata,**.....10581
f. **pseudopunctata,** 10581
f. **quadripunctata,** 10581
f. **tripunctata,** 10581
Dyscheres (p.2439[2]), *Hypomeces curtus* referred to, ...20172
griseus, syn., ...20172
macularius, referred to *Dereodus,*..20172
Dyscherus (p.2435[1]) **alluaudi,**.....14985
mocquerysi, ...14985
nigrita, ...14985
ovatus, ...14985
pseudomandibularis, ...14985
rugatus, ...14985
DYSCHIMUS (Trichop.)(p.2440[2]), ..8521
collyrifer, ...8521
ensifer, ...8521
thrymmifer, ...8521
Dyschiriognatha (p.2428[3]) **nigromaculata,** 14971
Dyschirius (p.2435[1]) **coamensis,**.....10478
Dyscia (p.2443[1]) **galactaria,**.....15122
malatyana, ...8511
plebejaria ssp. **dagestana,**.....8511
Dyscinetus (p.2437[2]), life hist. and control, on sugarcane, ...9894
Dyscritus (p.2450[4]) **suffolciensis,**....17314
Dysdercus (p.2433[2]), egg lipids,.....6534
howardi, metasternum and pleuron, 20277
Dysentery. (See also *Dysentery bacilli; Diarrhea.*)
amoebic. (See also specific organisms; e.g., *Entamoeba histolytica.*)
and amebiasis, book,.....7411
differential histopathology, balantidial and bacterial, ...18817
1933 outbreak in U. S. A.,.....1049
bacillary, bacteriophage in diagnosis, ...7467
etio-pathogenesis, carriers and vaccinotherapy, ...9703
bacteriophages in sewage in relation to, ...7512
Bacterium dysenteriae Flexner causing, ...9710
epidemic of disease like mild,.....3315
immunization to, by heterobacterigen, ...11836
incidence of bacillary vs. amoebic in infants, Chile, ...16362
Schmitz bacillus, Caxambú strain from human stools, biochemical and serological behavior, ...5360
Shiga-Kruse type, pathogenesis and pathology, ...5290
Shigella alkalescens as cause,.....9777
toxin, effect on histology and gaseous metabolism of kidneys,....3268
toxoid, preparation and immunizing value, ...5149
Dysentery bacillus(i). (See also *Shigella dysenteriae; S. paradysenteriae;* etc.)
carbohydrates, antigenicity, ...19032
diazo-carbohydrates, preparation and antigenicity, ...19032
differentiation of subspecies by serological and cultural methods, ...19032
dissociation, ...5363
morphological variations, ...5363
selective media for,.....19292
Dysentery-typhoid group of bacteria, diazoatoxylized, antigens and antisera, species vs. chemical specificity, prep., and Forssman antigen in, ...19032
diazotized, antigens and antisera, species vs. chemical specificity in, 19032
DYSEOLEMUR † (Mamm.)(p.2463[4]), 4320
† **pacificus** (E), ...4320

high frequency oscillating (*continued*)
effect on (*continued*)
internal body temp. vs. skin- and breath temp., ...13580
tissues, histopathology in rats, 4994
insect nerve lesions produced by, 3421
nature of lethal effect on leucocytes and of inactivating effect on cell oxidases, ...426
producing temp. changes in deep and superficial tissues depending on distance of condenser plates from tissues, ...13556
uses in biology, and mechanism of action, ...13576
Electric forces, in systems containing biological components, ...11142
Electric impedance, of body, detn., portable apparatus for, ...17986
normal children, ...18109
sex differences and relation to thyroid, ...18118
of erythrocytes, hemolysis as affecting, ...13517
Electric light. (See under *Light.*)
Electric organ, of torpedo, temp. coefficient of discharge rhythm, and drug effects, ...2573
Electric potential(s). (See also *Action current; Diffusion potentials; Injury current; Membrane, potentials; Oxidation-reduction potentials; Surface, potentials.*)
in bacteriology and biochemistry,..5382
of biological systems, note,.....2583
review, ...17971
in cells, relation to oxidation,....13599
.....17974
review, ...13516
in cochlea in hearing,.....2918
on colloidal particles, rôle in stability and in agglutination,.....9563
at cut surface of muscle as affected by conducting medium, ...935
dependent on differential stainability of tissues, ...15597
effect on ascent of sap,.....4700, 4701
across frog skin, as influenced by:
oxygen lack, ...2583
passage of small currents,...13533
x-rays, ...436
nature and factors affecting,...13463
of gastric mucosa, acid secretion as related to, ...9208
in *Halicystis* protoplasm, relation to perfusion of vacuoles,.....17872
of heart, summation,.....11522
of human body, improved electrode for measurement, ...424
in hydroids, ...7155
measurement, microcataphoresis chamber for, ...9620
review, ...13516
of minced skeletal muscle,.....9357
in *Nitella*, origin and relation to action current, ...13335
relation to movement of K ions, 17874
.....17875
in response to cold stimuli,....17873
variations as influenced by compression, ...17876
between *Paramecium* cytoplasm and medium, ...19969
at phase boundaries, in study of surface phenomena, ...4740
in plant cells, sources,.....13332
in plants and man,.....8978
pore theory of Michaelis,.....17974
related to loci of oxidation in cell, 2591
relation to oxidation-reduction potential, in narcotized fish gill,....17987
relation to permeability and temp., algae, ...17877
of skeletal muscle as affected by section of sympathetic nerves,....11507
in stimulated stamens, relation to water content and membrane permeability, ...13331
on surfaces, electrolytes as affecting, adsorption theories applied to, ...13528
Electric resistance, of antidiphtheria serum, ...13476
of atmosphere, detn.,.....18110
of bacterial suspension, autolysis as affecting, ...9842
of biological systems,.....13511
of body, detn. method, and relation to intelligence in various social and racial classes, ...11459
hardiness in apple stocks determined by, ...7805
in membranes, factors affecting,...6726
of muscle during contraction,....17974
in nerve block by cold,.....17974
of plant saps, book,.....8842
of skin. (See also *Reflexes, galvanic skin.*)
factors affecting, ...469
as influenced by electric currents, ...9084
relation to sweating,.....11288
a true ohmic resistance,.....11242
surface conductance, mathematical discussion, ...13510
technic of measurement,.....6786
of tissues adjacent to heart, effect on electrocardiogram, ...11236
of yeast, as influenced by death,...4710
Electric shock. (See under *Electric current.*)
Electric short waves. (See *Electric field, high frequency oscillating.*)
Electricity, effect on:
cadavers, ...18110
growth of plants,.....356
orientation of growing nerve fibers in tissue cultures, ...12516
production by decomposition of organic matter in soil, effect on plants, ...19264
therapeutic value, ...11211
use in producing monsters in chick eggs, ...8171
Electrocardiogram. (See under *Heart.*)
Electrocardiograph, cathode ray oscillograph, description, ...15621
Electrocollargol. (See *Silver, solution.*)
Electroculture (of plants), apparatus for, ...385
of flowers and vegetables,.....383
radiation affecting growth in,....18110
Electrocution. (See under *Electric current.*)
Electrode(s), fluid, convenient form, 17984
glass, e. m. f. measurement,.....17974
micro vessel for,.....511
graphite, oxidation-reduction potentials of culture media determined by, ...3371
inclined rotary, use in pH detn.,..6775
for measuring electrical potential of human body, ...424
quinhydrone, new micro type,.....488
new type, ...476
for thermal coagulation of cell masses in brain, ...18605
Electrokinetic phenomena, application to biology and medicine, book,..4740
Electrolysis. (See also *Dielectrolysis.*)
effect on physico-chemical properties of protoplasm, ...18001
specific carbohydrate preparation by, ...19308
of wheat seed, effect on yield,.....3477
Electrolytes. (See also *Acids; Alkalies; Ampholytes; Anions; Cations; Ions; Salts;* and specific ions, e.g., *Calcium, Potassium.*)
accumulation in plant cells,....15526
.....15527
in aqueous humor and blood serum, ...18332
in blood. (See under *Blood.*)
in cell sap, relation to hardiness,..4694
dielectric substance in, detn.,.....6786
effect on:
chloroplasts, *Spirogyra*, ...6691
dialysis rate of iron compounds, ...11153
electrokinetic potentials, adsorption theories applied to,....13528
hemoglobin solubility, ...548
hemolysis, ...17974
oxygen-hemoglobin equilibrium, 11142
proteolytic bacterial enzymes,..3358
viscosity of diluted egg yolk,...6731
extracellular concentration, effect on distribution of body water,..13455
of heart tissue, disease affecting,...923
in tissues, relation to water content, ...9069
Electro-magnetic induction in biology, ...18110
Electrometer, recording, ...11289
Electromotive force. (See *Electric potential.*)
Electrophoresis. (See *Cataphoresis.*)
Electrotonus. (See under *Nerve, polarization.*)
Eledone (p.2421[4]), variability of suckers on arms, ...10386
moschata, pupillary reflex time as related to visual purple in,..18594
Eleginus (p.2455[2]) *navaga*, parapophysial form, cause, ...5886
Eleocharis, Ca, N, and P content,....10899
Eleodes (p.2437[1]) **amedeensis**,.....8387
armata v. **pumila**,.....8387
kaweana, ...8387
oblonga, ...8387

inheritance of chlorophyll and, barley, ...2260
inhibition by hydroxylamine, ..18037
keeping quality of butter as shown by, ...12012
in milk and blood compared, cows, ...4757
oxygen quotient in mollusk tissues as factor in adaptation, ...10856
peroxidase detn. in presence of, 11171
in plant cells, as influenced by germination, heat, and ultra-violet, ...17914
in potatoes, relation to oxidase, 13390
size of molecule, detn. from diffusion coefficient unsuccessful due to inactivation in passage through filter, ...422
skin content, indicator of oxidative processes, factors affecting, ...4750
variability in *Propionibacterium* cultures, ...9832
in wheat, as measure of viability, 2501
yeast, optimum temp. and pH for, ...15565
catechol oxidase, from skin of rabbits, ...4434
cathepsin, glutathione as affecting, 2569
inactivation by halogen acetic acids, ...18047
nephelometric assay, ...15614
preparation from stomach lining, 4756
reversible inactivation, 13495, 13496
cellobiase, of *Cellulobacillus* spp., 16445

Enzyme (*continued*)
cellulose-breaking, ...20117
chymotrypsin, separation from trypsin by adsorption on aluminum hydroxide, ...18080
coagulase, test, for pathogenicity of staphylococci, ...9709
cytozyme, in muscle of fish, rôle in blood coagulation, ...569
dehydrogenases, action, on dinitrophenol, ...11256
kinetics, ...15556
activators, cozymase as, ...13387
and factors affecting activity, 18003
activity as influenced by flavine-protein, ...11183
of agalactia virus, ...18964
of *Bacterium coli*, ...9886
formate decomposition by, in presence of heavy water, ...11179
as influenced by dilution, ...11850
in bile, ...440
glucose, of aerobic bacilli, factors affecting activity, ...7583
coenzymes, relationships and activities 9886
in green pigment formation from hemoglobin, ...9812
inhibitors, effect on intracellular oxidation-reduction, ...15601
of lactic acid bacteria, mechanism of action, ...12031
lactic acid decomposition by, as influenced by hydrogen acceptors, ...390
from milk, action on xanthine and acetaldehyde, cozymase and adenylic acid as affecting, ...11165
rôle in intercellular respiration, 13596
rôle in oxidation of lactic and β-hydroxy-butyric acids in heart muscle, ...18009
in seed, ...15558
succino-, activity in tissues of *Rana*, ...13498
flavin not reduced by, ...18078
Warburg-Christian system, glutathione reduction by, ...13597
of yeast, ...18052
kinetics, ...13392
from yeast extract, action on lactic acid in presence of methylene blue, ...18027
digestive, dry preparations, ...17974
of pelagic copepod, ...11172
emulsin, action on phenyl β-*d*-glucoside-6-methyl ether, ...18030
activity as influenced by heat and pH, ...13394
by ozone, ...18029
hydrolysis of chitin by, ...13393
in marine invertebrates and microorganisms, ...18023
purification, ...4747
erepsin, action on glycyl-glycine, spectrographic study, in relation to mitogenetic radiation, ...6738
esterases, activity as influenced by chemical nature of reacting acids, ...4755
from liver, purification, specificity, and inhibition, ...11168
in pancreas extract, specificity, 18083
pectase as, ...15561
review, ...18006
specificity and nature of colloidal bearer, from liver of man, child, and fetus, ...405
fructo-saccharase, action, ...13389
fumarase, activity and stability of preparations from liver, kidney, and muscle of various animals, ..412
gelatinase, factors affecting formation by bacteria, ...9825
of gas-gangrene bacilli, pH as affecting, ...9879
glucosidases, *α*, specificity, ...13440
β-, of emulsin, destruction by ozone, ...18029
of milk sugar yeasts, ...391
cyanogenetic, AgI test for, ...13431
glycolase, of muscle, poisoning by monoiodoacetate, due to destruction of glutathione, ...2567
of muscle extract, inactivation by oxidation of SH group to -SS-form, ...18050
from *Torula*, ...2541

Enzyme (*continued*)
glyoxalase, activity, of acetone-yeast, detn. by manometric method, ...4752
in erythrocyte, as affected by glucose, glutathione, lysis, methylglyoxal and O, ...18229
inhibitor in kidney and pancreas, mechanism of action, ..18084
iodoacetic acid as affecting, due to destruction of glutathione, 414
guanase, in spleen of rat, carotene as affecting, ...13741
hemins as, review, ...18059
hemopoietine, in blood, in anemia, existence, rabbit, ...2640
from stomach, preparation and nature, ...11321
histaminase, action on histamine-like substance from lungs in anaphylaxis, ...17986
hydrogenases, bacterial formation, quantitative measurement and factors affecting, ...9885
formic, formation by *B. coli*, rôle of natural selection, ...19303
reversibility of system in *Bacterium coli*, ...12035
hydrolytic, from brain, ...11173
oxidizing and reducing and mercaptide-forming agents affecting hemolysin analogous to, 12051
inulase, from *Penicillium*, action on inulin, dilatometric studies, ...13404
invertase, action, kinetics, ...15573
activity as related to viscosity of medium, ...13491
of dried yeast, as influenced by monochromatic light, ...9038
fructo-, mode of action, ...13389
preparation from yeast and detn. of activity, ...13397
lecithinase, in snake venom, measured by surface action, ...18467
lipases, acting on liver phospholipid, ...18060
activity as influenced by chaulmoogric derivatives, ...7219
bacterial, monograph, ...16473
of blood, activity as influenced by ultraviolet, dogs, ...11209
content as affected by endocrine disturbances, ...18193
by pancreatitis, ...11419
of different species, ...18045
increase in tumor-bearing fowls, ...5199
detn., micro method, ...18025
in fish, relation to amount of fat storage, ...18014
injected, effect on blood fat, ...18266
from liver and pancreas, differences due to contaminating substances, ...420
in lymph and blood, comparative amount, ...6830
of milk, activation, ...18520
seasonal variation, ...7728
pancreatic, activity as influenced by halogen salts, ...18017
in cadavers of persons dying suddenly from various diseases, ...11170
chemical nature and properties, ...11180
of pneumococci, relation to antibacterial action, ...18046
review, ...18006
luciferase, as influenced by deuterium oxide, ...11185
maltase, of bakers' yeast, factors affecting, ...16425
classification, ...15570
as influenced by monochromatic light, ...13399
nitrogenase, in *Azotobacter*, ...18052
nucleosidase, purification method, ..2568
oxidases, action on vitamin C, ...15574
of amino acids, purification, ...18011
in animal tissues, iron and copper ingestion as affecting, ...11253
of ascorbic acid, ...18072
associated with cytochrome, in *Bact. pasteurianum*, ...2540
of *B. pasteurianum*, demonstrated by spectroscopy, ...13406
destruction by short electrical waves, ...426

Enzyme (*continued*)
oxidases (*continued*)
in differentiation of *Neisseria* and *Micrococcus* spp., ...14352
dopa-, hemin nature,.....17899
in lepidoptera, ...13715
in fruits, ...2535
as influenced by supersonic waves, ...9028
inhibitors, effect on intracellular oxidation-reduction, ...15601
of leucocytes, origin,.....408
of peaches, with catechol-tannin absent, ...13396
in potatoes, relation to catalase, 13390
relation to pigment production, plants, ...9030
rôle in intercellular respiration, 13596
rôle in plant pathology,.....13317
supposed direct spectroscopic observation, cytochrome and,..18036
system, of crystalline style of mollusca, ...2566
in tobacco, as influenced by ethylene, ...13352
oxidase-dehydrogenase, rôle in inductive action of blood, milk, tissues, yeast, etc., on photographic plate, ...6741
oxidation-reduction, ...18052
oxidizing, of agalactia virus,.....18964
in brain, ...17974
oxido-reductases, as influenced by Na-taurocholate, yeast, ...4706
of pancreatin, assay,.....9214
papain, activation, by blood, as test for SH compounds, ...11273
by cyanide, ...13400
activators, ...13398
activity as influenced by oxidation-reduction and by metal compounds, ...18031
antiurease inactivated by,.....11793
egg white digestion by, effect on toxicity, ...13440
inactivation by halogen acetic acids, ...18047
reversible inactivation, 13495, 13496
pectase, nomenclature and esterase character, ...15561
pectinase, from fungi, properties, 8948
pectindemethoxylase, new name for pectase, ...15561
pepsin, action on casein, partial cleavage products, ...13440
on raw and heat treated egg white, ...18018
on serum albumin, spectrographic study, in relation to mitogenetic radiation, ...6738
activity as influenced by:
gastric mucin, ...11439
glutathione, ...2569
pereirine, ...9390
sonic vibration, ...17974
adsorption on proteins, activity of amorphous or "spherical pepsin" and function of protein in crystalline pepsin as mere colloidal carrier, ...13488
antiurease inactivated by,.....11793
casein digestion by, products,..11424
crystalline acetyl derivatives, properties, ...18032
detn., photographic plate method, 9209
effect on corpus luteum hormone, ...7021
on tobacco mosaic virus,.....8914
pH for activation of zymogen,..18039
inactivation, by β and γ rays from Ra and by ultraviolet,.....417
by mucin, ...11142
by proteases, pH as affecting, 18071
by ultraviolet, relation to u. v. absorption spectrum, ..11147
temp. coefficient, ...11148
micro assay, nephelometric,.....9118
plastein synthesis by, enzyme concentration as affecting,.....407
preparation from dried stomach, activity, ...16177
from stomach lining, chemical nature, ...4756
relative efficacy with muscle and connective tissue, ...9210
spreading of monomolecular films, ...13489
and trypsin, reciprocal digestion, ...13440

Enzyme (*continued*)
pepsin (*continued*)
ultraviolet absorption spectrum, ...18024
wool fibers disintegrated by,....7528
peptidase, activity as influenced by zinc and cyanide, ...11182
content of eggs of *Psammechinus*, 7142
peroxidase, from apricots,.....2535
center in corpus striatum,.....14034
detn. in presence of catalase,..11171
distribution in animal tissues, 11171
in germinating *Nicotiana* seed,...9023
in grasshopper, changes during development, ...13484
of horseradish, hematin content, chemistry and activity,..2536
from milk, preparation and properties, ...409
relation to milk albumin,.....4744
tests for, Cu and Fe as affecting, 3115
+ xanthine oxidase + hypoxanthine, papain inactivation by, 13496
phosphatase, activation by Mg, 411, 2570
activity, as influenced by:
parathormone, in vitro,.....403
sulphydryl groups and pH, 13403
sulphydryl groups and iodoacetic acid, ...13492
measurement, in tissue extracts, factors affecting, ...11169
in blood, in erythrocytes, leucocytes, and plasma compared with other tissues, ...4753
as influenced by:
Ca and P in diet, sheep,..18158
hemorrhage, diet, fasting, and distemper, ...4805
iodo-acetic acid and iodo-ethyl alcohol, ...18259
nutrition, new-born dog,...4837
total diversion of bile to exterior, ...11167
origin, ...2626
in rickets and growth disorders, 918
significance of variations, osseous and non-osseous origin, ...13440
in blood and tissues, of tumor rats, ...18040
variations under influence of hormonal and vitaminous factors, ...11166
in bone, x-rays as affecting,...11248
co-zymase inactivated by, kinetics, ...13381
detn., comparison of methods,...6847
in domestic fowl,.....19385
of kidney, preparation, purification, properties, ...18004
specificity. 421
kidney vs. bone,.....15567
rôle in calcification,.....11166
in cartilage and osteoid tissue of birds, tissue culture, 14796
spleen, comparison with bone and red cell phosphatases, ...18019
in spleen extracts, in different spp., ...18019
in water extracts of X-irradiated rabbits, ...11249
from yeast and *Aspergillus*, action on phosphate substrate, ...2537
yeast co-zymase inactivated by, 15567
phosphoamidase, necessary for hydrolysis of phosphoric acid amides, 421
phospholipid-destroying, in bacteria, ...16434
polypeptidases, separation from acylases, ...2561
prolan regarded as,.....13865
protaminase, separation from proteinase, ...18081
protein synthesizing, in spleen of calf, ...4746
proteolytic, action on collagen fibers, point of attack as related to molecular structure of collagen, ...13471
on polypeptides, as influenced by certain substituted groups into free amino group, 399
on polypeptides containing *l*-alanine, length of C chain as affecting, ...2563
on polypeptides containing glutathione, ...401
on synthetic dipeptides containing *l*-histidine, ...400
advances since 1929,.....18079

Enzyme (*continued*)
proteolytic (*continued*)
bacterial, ...5380
of *Clostridium* spp.,.....5362
as influenced by electrolytes and non-electrolytes, ...3358
in milk separator slime, pasteurization destroying, ...16435
of natto bacillus, effect on immunogenic power of cholera vibrio, ...3358
secretion and heat inactivation, ...2539
specific immune, in malaria,..7394
of body fluids and urine, type, age and sex specificity, ...16209
catheptic, from brain tissue,....11173
detection, micro methods,.....18054
effect on allergens of pollen,....7365
in eye lens,.....18579
inactivation of pepsin, trypsin, and salivary amylase by, pH as affecting, ...18071
from intestine and excreta of *Phormia regina* larvae, ...18048
of latex of *Calotropis*,.....15555
of marine fish, relation to activity of fish, ...18014
milk coagulating action, urease as inhibitor, ...18070
of monocytic and polymorphonuclear pleural exudates, ...18082
from pancreas, components,....18080
permeability of regeneration tissues for, ...17991
physical changes in protein solutions preceding action, ...4754
in placental extract, milk coagulation by, ...18049
plant, activators, ...13398
qualitative test for,.....18069
rôle in digestion by insectivorous plants, ...11114
of spleen, preparation free from protein synthesizing enzyme, 4746
of spleen and leucocytes, classification and properties, ...2571
in *Solanum indicum*,.....15570
in tumor tissue,.....18934
from yeast, separation from yeast phytokinase, ...2569
reductase test, for bacterial content of milk, ...12008
for casein spoilage,.....9795
for milk sanitary analysis, comparisons, ...1212
for pasteurized milk,.....5346
rennin, absence from gastric mucosa in pig. 18070
action as influenced by urease, 18070
activity of prep. from dried stomach, ...16177
bacteria producing, sweet-curdling of milk by, ...7553
pH for activation of zymogen,..18039
inactivation by heat, as influenced by hypertonic sugar solutions, ...3332
isolation from fourth stomach of calf, pH as affecting,.....4748
in milk coagulation, physical changes in, ...16438
types of curd in milk induced by, as influenced by sp. and by lactation stage, ...11724
respiratory. (See also various enzymes, e.g., *catalase, dehydrogenases, oxidases, peroxidase; Pigments, respiratory,* and various pigments, e.g., *cytochrome, flavins, hemins, porphyrins; Glutathione; Thyroxin; Vitamin C;* etc.)
bacterial classification by,.....7573
effect on respiration in *Nitella*,..15583
kinetics, ...9012
review, ...13596
in spores and vegetative cells of aerobic bacilli, and factors affecting, ...7588
tyrosinase resembling, ...13486
tannase, in *Aspergillus*, action and kinetics, ...13391
thrombin. (See also *Blood coagulation.*)
action in blood coagulation, second phase, ...2646
azo-dyes as affecting,.....18221
in blood, as influenced by hypertonic saline intravenously, ...18237
dissimilarity to trypsin,.....18067
preparation and properties,.....556

Enzyme (*continued*)
thrombin (*continued*)
prothrombin, cephalin content of prepared solutions, ...6820
origin and relation to histiocytes, ...1661
trypsin, action on bread crust and crumb, comparison, in vitro, ...6879
on cartilage, synovial fluid from arthritis as affecting, 11651
on raw and heat treated egg white, ...18018
on stereo-isomers of halogen-acyl-amino acids, ...2560
activation of trypsinogen in presence of $(NH_4)_2SO_4$ or $MgSO_4$, 18042
activity as influenced by sonic vibration, ...17974
complex nature and importance of accompanying substances in behavior, ...2561
crystalline, molecular wt. and water of hydration, ...6712
in detn. of resistance of wool fibers to bacterial disintegration, 7528
differentiation by anaphylactic test, ...18073
effect on:
blood coagulation, dissimilarity to thrombin, ...18067
corpus luteum hormone, ...7021
tobacco mosaic virus, ...4662
virus infection in plants, ...8913
erepsin-free solutions, ereptic actions in, ...18002
inactivation by proteases, pH as affecting, ...18071
isolation of crystalline trypsinogen and conversion to trypsin, ...18043
nephelometric assay, ...15614
pancreatic, in cadavers of persons dying suddenly from various diseases, ...11170
and pepsin, reciprocal digestion, ...13440
possible non-homogeneity, ...18080
spreading of monomolecular films, ...13489
subcutaneously, effect on sugar metabolism, ...13839
synthetic peptide as substrate for, ...18010
tyrosinase, action, possible hydrogen acceptors, ...18056
extraction and nature, ...392
of lepidopteran larvae, ...13715
of mealworms, immunological action and mechanism, ...9516
nature, ...13486
rôle in discoloration of cheese, ..19237
in skin, of newt, ...1623
of rabbit, heredity, ...4434
urease, activity as influenced by: buffers, ...18033
oxidation-reduction potential, ...11142, 18021
polyhydric phenols, thiol compounds as affecting, ...18057
antiurease reaction with, quantitative relations and factors affecting, ...11793
inactivation by metals, temp. and pH as affecting, ...2538
inhibition of milk-coagulating proteases by, ...18070
occurrence in body cavity fluids and tissues of *Arenicola*, ...18068
in stomach of fetus, ...11420
in technic of urea detn., ...18234
-urea system, mitogenetic rays, 18055
uricase, action, kinetics, ...4745
on uric acid in vitro, decomposition products, ...413
function in plants, ...397
in mouse liver, ...13679
vitellases, in yolk of developing egg, squid, ...19950
xanthine oxidase, action on dinitrophenol, ...11256
+ hypoxanthine + peroxidase, papain inactivation by, ...13496
reaction with molecular O, lactoflavine as affecting, ...18026
xylanase, adsorption by $Al(OH)_3$, 15566
zymase, in apples, ...13430
zymin, as influenced by ethanol, ..13386

Furnarius (p.2461[4]) *leucopus* **pallidus,** 6424
Furunculosis, in fish, *Pseudomonas fluorescens* causing, ...7326
Fusarium (p.2390[4]), in banana tip rot, ...13241
from banana soils in Colombia,..1232
causing barley seedling blight, pathogenicity and control,....17754
causing cotton root rot, in central Asia, ...6543
causing seedling blight of conifers in Canada, ...17771
on *Cereus schottii,*....8875
citrus diseases due to, in Brazil, 6553
on date palm, in Africa,....8878
extracts from, causing non-specific wilting in plants,....281
injuring grape, ...15459
paper spotted by, enzyme rôle,..9791
parasitic and non-parasitic spp. in Colombia soils, ...1232
on peas, new form of wilt due to, 8867
pathogenicity, in Holland,....8886
on sweet potatoes, growth, as infl. by pH, ...13305
toxicity to animals,....14532
albedinis, *Cylindrophora a.* microconidial stage of, ...8877
on date palm, Africa,....8877
annuum, on chili peppers, symptoms and environmental relations, ..13204
anthophilum, on *Scabiosa,* effect on embryo development, ...6599
coeruleum, on potato tubers, as infl. by host nutrition, ...11004
conglutinans, on cabbage, in Cuba, 13325
pathogenicity of different strains, ...2454
v. *callistephi,* on China asters, in England, ...13226
v. *majus,* causing aster wilt, S. Africa, ...2422
on China asters, in England, 13226
cubense, on bananas, world dist. and pathogenicity, ...15505
on *Musa,* in Brit. Guiana,....15499
culmorum, causing bulb rot of *Galtonia,* 2410
on rye, control by seed disinfection, ...6634
seedling blight of wheat due to, in combination with *Urocystis tritici,* 8866
on wheat, infection conditions, 11015
in wheat root rot, dist. of virulent types, ...4652
fructigenum, factors controlling zonation in, ...3592
lini, on flax, control of seedling infection, ...324
lycopersici, in tomato wilt, pathogenic action, ...2452
moniliforme, on maize, in N. Caucasus, ...215
maize seed infection by, maturity as affecting, ...2464
pathogenicity for maize and temp. relations, ...17825
v. *subglutinans,* conidial stage of *Gibberella fujikuroi* var. *s.,*...8865
on maize, description and pathogenicity, ...8865
on *Musa,* as factor in heart rot,..267
nivale, snow mold of turf grasses due to, general study, ...218
niveum, on watermelons, conidial migration through trachea,....10964
mode of infection,....2479
oxysporum, growth and respiration, as influenced by amino acids, 13373
solani, on *Citrus,* relation to gummosis and brown rot,....10960
vasinfectum, on cotton, losses due to, ...13325
varietal reactions to,....222
wilt due to, pathogenic action, 2452
on rahar, infection factors and varietal resistance, ...2468

Fusarium (*continued*)

Gonad. (See also *Egg; Ovary; Sperm; Testis; Transplantation.*)
ablation, effect on:
body activity, rats, ...13939
habit formation and retention, rat, ...4886
secondary sex characters, sparrow, ...7052
antagonism of grafted testes toward ovary as related to pituitary, *Amblystoma*, ...1724
development, as affected by vitamin E, rat, ...13856
of Bidder's organ and, relations in toads, ...5935
in birds, ...1712
after early removal of pituitary, *Rana*, ...1724
effect on periodicity of plankton species, ...13176
in fishes, ...19912
as influenced by destruction of germinal epithelium, chick embryo, ...1729
in species hybrids, *Drosophila*, 2307
development and sex differentiation, fish, ...14781
effect on water and salt metabolism, ...18603
embryology of sex differentiation, *Rana* and *Bufo*, ...2326
extracts, effect on ant. hypophysis, normal and gonadectomized rats, ...1686
on creatinine metabolism, ...15673
formation, rôle of germinal epithelium in growth after differentiation, turtle, ...10217
formation and origin of germ cells, fish, ...1712
function, as affected by phyone and hebin, newt, ...7003
growth as related to development of constitution type, rabbit, ..1710
histology of sex differentiation, trout, ...5929
immature, as affected by prospermin from male urine, rat, ...7003
implants, effect on secondary sex characters, sparrow, ...7052
as influenced by:
adrenal cortex extract, rat, ...7004
....7048
anterior pituitary extracts, ...7031
environmental temperature, squirrel, ...4884
estrin, rat, ...13884
extract from alfalfa meal, ...4882
feeding testis, ...13923
gonadotropic hormone from pregnancy urine, salamander, ...13893
hormone in blood serum of mare, 676
hypophysis ablation, birds, ...18521
urine from patient, with chorioepithelioma uteri, ...7025
with teratoma testis, ...7024
vitamin E lack, fowls, ...13811

Gonad (*continued*)
in rickets, histopathology, ...7266
secretion, as affecting healing rate of bone fractures, ...11494
sex-differentiation as influenced by graft of intermediate segment and adjacent mesoderm, in frog, ..1724
substance stimulating, detn. of small amounts, ...13440
testis-ovum, frog, ...3874
x-ray sterilization, effect on pituitary function, rat, ...7003

Crepis, chromosome fragmentation in, ...6509
egg production in, domestic fowl,..8798
fern, spore viability in *Asplenium*, 3631
Hybrid (*continued*)
fish, sex-linked factors in,.....8729
between geographic races of *Drosophila obscura*, ...17667
grape, ...3525
intergeneric, in Cucurbitaceae,....4395
interracial, in wheat rust fungus, sterility in, ...17640
interspecific, in *Acheta* (cricket),...8771
in *Brassica*, meiotic chromosome behavior, ...13008
and glucoside content, *Iris*,.....8737
and intergeneric, in grasses, factors in success, ...13032
in *Nicotiana*, chromosome affinities in, ...6501
in *Oryza*, cytology,.....13009
in *Streptopelia*, ...17680
in tobacco, chromosome number in relation to fertility,.....13059
intervarietal, in *Anopheles maculipennis*, sterility, etc., in,.....4423
inheritance of growth habit in, wheat, ...4397
intra- and interspecific, wheat, Hokkaido, ...4418
Lama × *Vicugna*,.....5495
meiotic irregularities in sterile *Drosophila* crosses, ...15291
natural, in *Anthyllis*,.....4389
in *Avena* spp.,.....8730
in *Brassica*, seed size and chromosome number, ...4394
in *Gaultheria* and *Pernettya*,....14598
in *Pharbitis nil*,.....10756
in rice, ...10755
nearly sterile, use in plant propagation, ...8744
polyploid, constancy and fertility in *Galium*, ...6489
potato, inheritance of color in,....4406
race, egg production, goose,.....13095
of *Robinia*, chromosome compatibility in, ...6524
of *Rosa*, ...19613
of *Salix*, apogamy in,.....17638
Salix laurina, analysis of hybridity, ...13051
of selected strains, habits and fertility, flax, ...78
sex ratio in, *Triton*,.....2903
silkworm, egg viscosity and yolk cell size, ...2341
species, of *Allium*, cytology of backcross, ...8729
of *Anthericum*, cytology and embryology, ...2212
of *Avena*, cytogenetics,.....4396
of *Brassica*, chromosome numbers, ...10771
of *Celerio* (Lep.), cytogenetics,..13073
of *Chrysanthemum*, fertility as affected by chromosome number of parents, ...8716
of *Collinsia*, ...8744
constancy, chromosome doubling and tetraploidy as source,...4420
of *Digitalis*, cytogenetics,.....83
of *Drosophila*, gonad development, 2307
endosperm development and breeding technique, wheat, ...2261
fertility and embryogeny in reciprocal crosses, wheat, ...17650
fertility in wheat-emmer,.....17651
of *Festuca* (grass), amphipolyploidy in, ...13010
of *Gossypium*, ...4383
heterosis in, mouse,.....8778
inheritance, *Avena*, ...4411
of crinkled dwarf mutant in, cotton, ...4377
intermediate characters in F_2 of *Pisum*, ...4360
of *Iris*, cytogenetics,.....13016
fertility and meiotic regularity of, ...6517
lint color inheritance in cotton, 4356
meiotic irregularities in pentaploid wheat, ...17622
natural, *Avena*, ...82
Triticum-Aegilops, ...4386
of *Nicotiana*,.....8740, 17615
crossingover in unreduced gametes, ...13039
meiosis in, ...8741
occurrence of tumors in,.....2449
polygenome, experimentally produced in, ...13038
of *Nolana*, ...8760

Hybrid (*continued*)
species (*continued*)
of oats, inheritance of resistance to loose and covered smuts,..108
of *Paparer*, ...2267
of *Petunia*, pollen color inheritance in, ...4372
reciprocal, differences and sterility, *Linum*, ...10751
of *Saxifraga*, ...2266
segregation of quantitative genes in tetraploid vs. diploid, *Lycopersicum*, ...8751
size inheritance, dominance of genes for, tomato, ...8751
tetraploid attraction between chromosomes, tomato, ...8729
of *Viola*, cytology of sterility,..17599
of wheat, cause of absence of genetic types in, ...4415
inheritance of head density,..8749
species and generic, meiotic irregularities, *Saccharum*, ...6518
sterility, in ♂ *Drosophila*, cytogenetics, ...15313
in varietal crosses of egg-plant,..4404
sugar cane × sorgo, histo-morphology, ...17635
sugar peas, ...7783
teratologies in beet, inheritance,..12356
tri-generic, of *Zea, Tripsacum* and *Euchlaena*, ...8729
trigenomal species-, manifoldness due to crossing-over, *Nicotiana*, ..13037
triple rye × wheat, cytogenetics, 13050
Triticum-Aegilops, nuclear migration and syndiploidy in, ...13002
Triticum × *Agropyrum*, inheritance of disease resistance and vegetative characters, ...17649
Triticum × *Secale*, irregular inheritance of hairy neck,.....111
true breeding, *Nicotiana*.....10759
twins, in *Iris* plant,.....14643
variety, of wheat, carotene content and quality characters, ...4375
wheat, emmer-spelt, ear-character inheritance, polyploidy, etc., 10763
wheat × rye, amphidiploids, kernel size, sterility, etc., ...10760
inheritance of crossability,....13065
wild, of *Draba*,.....4370
of New Zealand, extent of occurrence and taxonomic importance, ...19569
Zea × *Euchlaena*, chromosome distribution at meiosis, practical breeding possibilities, ...6503
Hybridization. (See also *Heterosis; Hybrid.*)
importance in connection with taxonomic problems, ...155
interspecific, rôle in evolution of *Crepis*, ...3633
method, new technique for cotton,...87
in soy bean,.....85
in wheat, ...90
in mice, effect on anthrax susceptibility, ...16204
natural in kaoliang,.....13028
in primates, ...17989
rôle in evolution as illustrated by *Nicotiana*, ...6501
of *Oenothera*, ...6490
technique, for cotton,.....87
for *Ipomoea batatas* and species-hybrids, ...10770
for rice, ...13047
for soy beans,.....85
for wheat, ...90

....16495, 19310, 19321, 19334
....19339, 19346, 19350, 20175
nicotine pine tar oil as,....1320
oil, miscible, in treehopper control,....19351
penetration into porous solids,..1324
vegetable,....9932
white, emulsions, in narcissus pest control,....7645
oil emulsions as,....7621
ammonia casein in,....1328
in apple maggot control,....19371
for citrus scale,....19348
for codling moth,....7627, 12059
compatibility with lead arsenate, 1327
in control of seed-corn maggot,..9903
detn. of surface film on leaves, 3428
effect on spray coverage,....7633
factors affecting efficiency,....3418
fish and mineral oils in, effect on arsenic residue,....1319
for obscure scale,....7615
for oriental fruit moth,....19342
for peach borer,....12071
pine, in codling moth control,...7692
for red scale on lemon,....19345
tar distillate, conc. computation, 1322
for treehopper control,....19351
in webworm control,....3402
white, in pine scale control,....5453
for orange pests,....19324
for orchard pests,....7621
for orchard weevil,....16495
organic thiocyanates as,....7676
paradichlorobenzene as,....1321, 1328
....9950, 12071, 14378
....16495, 19347, 19371
Paris green as,....7642, 3389
....9946, 12094, 14378, 16494
permanganate as,....14386
pine oils as,....7692
polychlorides as,....1321
for potato flea beetle,....14380
pyrethrum as,....1273, 1292, 3399
....3402, 3426, 3427, 7634
....7653, 7656, 7659, 7685
....9895, 9903, 9946, 12064
....14515, 16494, 16497, 16501
....19321, 19334, 19341, 19370
quassia extract as,....7669
retenone and related compounds, occurrence in Fabaceae,....14526
review,....11074
for scarab beetle,....1275
for seed-corn maggot,....9903
selenium as,....3425
semesan as,....16506
soaps as,....1320
....3419, 7633, 9946, 16403
....19310, 19334, 19344, 20131
soil, application,....7682
for potato pests,....7650
spreaders for, evaluation,....11028
stomach, tests on,....7643
stomach-poisons,....3420
substitutes for Pb arsenate,....7672
sulphur as,....307, 1292, 1298, 3395
....5445, 7621, 7650, 9893
....12086, 19310, 19324, 20131
tabacol as,....9933
for *Taeniothrips*,....16494
tar distillates as,....3383
....5439, 7623, 7690, 19334
for termites,....12860
tests, in California,....19321
Connecticut annual report,....19310
for thrips,....1329, 9946
for tobacco bed,....3397
2-phenylbenzothiazole as,....3420
in webworm control,....3402
for woolly aphis,....12066

flexor of forearm in wild boar,....8052
of full and short action, fiber length as influencing, man, ...14728
function, cell lipids and,.....13440
as influenced by gelatine feeding, in progressive muscular dystrophy, ...16162
rôle of cell lipids in,.....7204
gamma excitability in, as affected by curare, ...744
globulin, as affected by gastric juice, in pernicious anemia, ...6990
glutathione, as influenced by dinitro-α-naphthol fever, ...16056
by pituitary growth hormone, rat, ...18477
reduced, insulin and vitamin B as affecting, ...441
gluteus maximus relations to ischial tuberosity in sitting posture, and law of weight-bearing prominence, ...19853
glycogen, aerobic synthesis from lactic acid, fluoride and sulphite ions as affecting, ...17986
in cardiac, infant and adult,...18659
as influenced by:
adrenal ablation, ...9225
adrenal cortex, ...11370
anterior pituitary extract, guinea pig, ...7042
decerebration, ...6928
diet, rat, ...13689
endocrine factors, ...18463
epinephrine, on carbohydrate-free diet, rat, ...13685
pH, ...2975
low oxygen pressure, rat,...13440
ovary ablation and theelin, rat, ...6932
pancreatic activity, ...18471
temperature, post-mortem fish, 4943
vagus section, ...11369
metabolism as affected by denervation, rat, ...15683
recovery after fatigue as influenced by:
adrenal cortex extract after adrenalectomy, dog, ...633
adrenalectomy, dog, ...2717
insulin, ...2719, 2721
liver ablation, ...2718
pancreas ablation, ...2719, 2721
section of vagus and splanchnic nerves, ...2720, 2721
storage capacity, dog,.....13682
glycogen and fat in, as affected by pitressin and pitocin, rat,..2723
glycolase, poisoning by monoiodoacetate, due to destruction of glutathione, ...2567
heat coagulation, factors modifying, ...9363

Muscle (*continued*)
heat production, detn. and analysis, ...11538
detn. in contraction,.....17974
hemagglutinins A and B demonstrated in dried, ...3193
hemin in, extraction method and properties, ...2661
hereditary clonus of chin, man,....4445
hexosemonophosphate, as affected by pH, ...2975
metabolism in, frog,.....18639
hexosephosphate, as affected by muscle training, ...2360
by oxygen lack, frog,.....4940
of hind leg, comparative anatomy, lion, ...5893
pH, factors affecting,.....4946
hyo-pyramidal, connecting hyoid bone and thyroid gland, incidence, ...5944
imbibition, in mineral waters, frog, ...13472
as influenced by:
acetylene dibromide, ...16024
Bryonia eretica, ...3059
drugs, ...16046
iodoacetate and glutathione,...17974
parathormone, ...7026
resins, ...797
injury potential, ...17974
relation to excitability, factors affecting, ...15938
of inner ear as related to fluid movement during tonal stimuli,.....11489
innervation, and problem of segmentation in morphogenesis,...16864
inorganic composition of striated, smooth, and cardiac, comparison, ...7213
inositol in cardiac, source,.....6935
intercostal, arrangement and nerve supply in man and mammals, ...19846
nervous control, ...18413
intermittent claudication, tissue extracts as affecting pains in,.....16016
invertebrate, drug action on,....18767
juice, proteins in, denaturation by freezing, ...2969
lactic acid, in crab,.....4929
formation, adrenalectomized dogs, ...13454
as influenced by:
pH, ...2975
NaCl and KCl, in sugar solution, ...2971
rate of stimulation,.....4932
temperature, ...4943
oxidation by washed, in presence of methylene blue, ...18028
removal after exercise,.....11142
lactic acid and β-hyroxybutyric acid oxidation in, rôle of dehydrogenase and coenzyme,....18009
laryngeal, and voice registration,..747
latent period, detn., method, 724, 4765
of leg in domestic cock, anatomy, 5892
lesions in lead poisoning, monkeys and cats, ...11572
of limbs of ungulates, adaptive changes for long standing and running, ...1644
lissohyoglossus, in tongue of crossopterygian fish, description,.....8049
mammalian, buffer system,.....9359
masticatory, lymphatic drainage in man, ...14725
in proboscidians, ...5885
as related to asymmetry of head, crossbill, ...8040
mechanical properties, ...4927
metabolism, efficiency as affected by age, ...13647
as influenced by monoiodoacetic acid, heart muscle, ...2730
motor coordination, cortical development as correlated with, bear,...1682
myasthenia gravis. (See *Myasthenia gravis.*)
of neck, accessory, splenius capitis and cervicus, cadaver, ...19848
-nerve, all or none law and, crustacean, ...2946
chronaxia, as affected by exclusion of various portions of central nervous system, ...7196
during various pathological conditions, ...7202

Muscle (*continued*)

excitability as affected by elimination of influence from central nervous system, ...15927
onium salts as affecting,.....3047
nerve terminations in, nature, in *Petromyzon,* 3794
nitrogen, in crab,.....4929
nitrogen partition in, as affected by inanition, ...11363
oblique abdominal, internal, variations in rabbit and ass,.....5896
obturator, anatomy in dwarf wapiti (*Cervus*), ...19735
ocular, annular fibers in eye muscle of mammals, ...19852
exophoria, as affected by age, 11468
of Oligochaeta, ...20053
orbicularis oculi, contractions, effect on eye-ball, man, ...11484
osmotically induced volume changes in, method for following,....11283
O consumption, after immersion in Ringer's solution, ...18649
as influenced by:
fumaric, maleic, malonic and succinic acids, pigeon,..15934
iodoacetate, ...18648
NaCl and KCl, in sugar solution, ...2971
thyroxin, ...4959
oxygen consumption, contractility, and glycogen and phosphagen synthesis, freezing and thawing as affecting, ...2984
palmaris longus, in living Poles and Jews, absence, ...19855
pectoral, variations, firmisternal amphibians, ...8041
of pelvic girdle, development, amphibians, ...12493
of pelvis and femur, mechanical relation to development of erect posture, mammals, ...12479
of penis, rôle in erection,.....800
permeability, as affected by adrenal ablation, rats, ...9270
phenol retention by, rats,.....7111
phosphagen, breakdown and resynthesis in, freezing and thawing as affecting, ...2976
as influenced by dinitro-α-naphthol fever, ...16056
renewal after work,.....18647
rôle, ...18052
phosphatase, activity, tumor rats, 18040
as influenced by parathormone, 11166
phosphocreatine in, functions,...17974
rat and frog,.....499
synthesis and breakdown in cardiac, Ca and K as affecting, 11536
phosphocreatine and glutathione in, after pituitary ablation, toads, 9243
phospholipid, variations, and relation to activity, ...15932
phosphoric acid in, as affected by stimulation, frog, ...2973
phosphoric acid esters, adenyl pyrophosphate, enzymatic splitting in heart muscle, ...18053
coenzyme of lactic acid oxidation as relation to Euler's cozymase, ...13483
hexosediphosphoric acid formation, ...2631
hexosemonophosphate, frog, ..11142 13440
phosphoric acid loss during activity, as affected by CO_2, H_2, and O_2, frog, ...2974
phosphorus compounds in adrenal insufficiency, ...17984
distribution, ...17974
in freshwater fish,.....4935
physiological behavior in presence of fluoride and sulphite, frog, 17986
pilomotors, denervation, effect on response to stimulation,.....9347
piriformis, variation of sciatic nerve in relation to, Whites and Negroes, ...19896
progressive dystrophy with microphthalmia, familial, ...10823
pronator teres, relations to supracondylar foramen in mammals, 8045
proteins, as affected by inanition, 11363
denaturation by freezing, fish, 11991
solubility as affected by muscle training, ...9360

Muscle (*continued*)
pterygoid, lymphatic drainage of, in man, ...14725
pterygo-maxillary, anatomy in teleosts, ...16874
pyruvic acid detn. in,.....9109
formation in, sources (polemic),..731
refractory period, of cardiac, all or none law in, toad,.....773
in vitro, ...18662
relaxation time-course and training in, man, ...11505
respiration, as influenced by avitaminosis B, pigeon,.....11678
by guanidine, ...11346
retractor bulbi action, comparative anatomy, ...19754
in carnivores and ungulates, anatomy, ...8031
rigidity. (See *Rigidity, decerebrate.*)
sarcoplasm, of hypertrophied heart-muscle fibers, inclusion bodies in, ...9691
sartorius, number of fibers in nerve in frog, at various ages,.....16936
scalenus medius, origin, from atlantal slip, ...1693
scalenus minimus, effect on subclavian artery, ...1739
sensitization to barium by eserin, leech, ...17984
in situ, technic for studying,.....18646
smooth, anaphylactic contraction in, as influenced by autonomic nervous system, ...11828
of blood vessels, sensitization to epinephrine, after sympathectomy, man, ...7193
denervation, effect on response to stimulation, ...9347
effect on elasticity of blood vessels, ...15991
as influenced by:
acetylene dibromide, ...16024
amines, ...3026
barbiturates, ...9391
drugs, ...9189, 16036
teleosts, ...7215
extracts, of male genitalia,..18719
of stomach fundus mucosa, 2824
frequency of alternating and intermittent direct current stimulation, *Mytilus*, ...17985
harmalol, ...3043
Janus green, ...793
N-methylated-β-phenylethylamines, ...9380
neosin, ...7223
oil of *Cymbopogon*,.....14018
Pereirine, ...9390
perparine, ...18764

anomalus, ...4073
banksii, syn., ...4073
barrowsi, ...10443
bilineatus, ...4073
synonymy, ...4073
brevis, syn., ...4073, 10443
canadensis, syn., ...4073
carolinus, syn., ...4073
clarus, syn., ...4073
crenifer, syn., ...4073
deceptus, ...10443
emertoni, ...4073
synonymy, ...12700
flavidus, ...4073
hoples, syn., ...10443
inaequipes, ♂ descr., ...10443
inquisitor, syn., ...4073
josemitensis, ...4073
lineatus, syn., ...4073
louisianus, syn., ...10443
lutulentus, ...4073
macrotarsus, syn., ...4073, 10443
mediocris, ...4073
minusculus, syn., ...4073
minutus, syn., ...4073
montanus, ...10443
ornatus, syn., ...4073
otjimbumbe, ...6197
ovatus, syn., ...6193
peninsularus, ...4073
pictus, syn., ...4073
signifer, syn., ...4073
speciosus, ...4073
sphaeroides (*Diaea*), ...6193
syntheticus, syn., ...4073, 10443
ubiquitor, syn., ...4073
unicolor, syn., ...4073, 10443
utus, syn., ...4073
varians, syn., ...4073
washita, syn., ...4073
wyomingensis, ...4073
Philodryas (p.2549[2]) *oestivus*, blood cells, ...1652
Philometra (p.2411[4]) *opercularis*, from fish, in Russia, ...5233
